****Tuesday's activities will revolve largely around Sapphire training & Department/Team Meetings.** Groups are organized in departments so, as a team you are able to judge the amount of training you need with Sapphire and the amount of time you need to work as a team. Remember, after Tuesday's initial training, there are multiple trainers throughout your schools who can serve as your future first-line of support. We will also hold additional after school sessions throughout the year.

*****Special education teachers will meet with Dr. Fassett in the morning.** The afternoon sessions should be spent in grade-level and/or department meetings.
